

All, Both, Every & Each

CEFR B1

Lesson Pack · summary, worksheet & answer key

Quick answer

These four talk about groups, but differ in number and focus:

- 1 all — three+ as a whole, + plural/uncountable (all the cakes, all the time).
- 2 both — exactly two, + plural (both answers).
- 3 every / each — individuals, + singular noun and verb (every day, each person).

'Every' and 'each' take a singular verb: Every room is booked. 'Each' works for two; 'every' needs three or more.
