

First Conditional

CEFR B1

Lesson Pack · summary, worksheet & answer key

Quick answer

The first conditional (if + present simple, will + base verb) is for a real future possibility. Use it for:

- 1 A likely future result — If it rains, I'll stay home.
- 2 Warnings, promises and offers — If you touch that, you'll burn yourself.

The if-clause uses the present simple (not 'will'); the result uses will. You can replace will with 'be going to', a modal, or an imperative.
