

Future Continuous

CEFR B1

Lesson Pack · summary, worksheet & answer key

Quick answer

The future continuous (will be + verb-ing) is for an action in progress at a future moment. Use it for:

- 1 An action in progress at a future time — This time tomorrow, I'll be flying to Rome.
- 2 Polite questions about someone's plans — Will you be using the car tonight?

Form it with will be + -ing, the same for every subject. For a completed future action, use the future simple (I'll finish by six).
