

Mixed Conditionals

CEFR B2

Lesson Pack · summary, worksheet & answer key

Quick answer

Mixed conditionals combine two different times in one sentence. The two common types are:

- 1 Past condition → present result — If I had studied, I'd have a better job now.
- 2 Present condition → past result — If I were braver, I would have said something.

Match each half to its own time: past perfect for a past condition, 'would' + base verb for a present result (and the reverse for the other type).

At a glance

Clause	Verb form	Example
If-clause (past condition)	if + past perfect	If I had studied medicine,
Main clause (present result)	would ('d) + base verb	I'd be a doctor now.

Learning objectives

- Can combine two time frames in one conditional sentence (CEFR B2).
- Can form past-to-present mixed conditionals (if + past perfect, would + base verb).
- Can distinguish mixed conditionals from the second and third conditionals.
